## DC QUALITY

The quality of Dental Central products fulfils the demands placed on a brand-name manufacturer from Germany. Trust in us: no matter whether medical products, instruments or disposable articles, Dental Central brand-name articles are produced solely in certificated manufacturing processes; our company is certificated as complying with DIN EN ISO 13485:2003 and consequently guarantees a constant quality standard. Our disinfection products correspond to the standards set out in guidelines issued by the Robert Koch Institute.

## DC PRICING

The Dental Central brand catalogue provides technical details about our products. Our dense network of more than 500 distributors is able to supply the whole of Europe, giving European customers fast access to our products. With our many years of experience and being deeply rooted in the dental industry, we are able to network manufacturing processes intelligently and cost-efficiently, allowing us to offer our partners and customers flexible and internationally competitive prices.

## DC PERFORMANCE

The founder of Dental Central Mr Jürgen Heydorn, with his thirty-five years of experience in the dental industry, stands for the continuity of quality, development, production and marketing of the Dental Central brand-name products. Our portfolio undergoes permanent improvement and is regularly extended. Throughout the entire range, from impressions, material for fillings, disposable articles, disinfection, endodontics, prophylaxis and an extensive laboratory range, we have developed more than 300 products in recent years and launched them under the Dental Central brand name.

We extend an invitation to you!
